REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The examiner would like to note that according to MPEP 716.02 unexpected results must be commensurate in scope with the claims. In the present application, the claims are commensurate in scope with the unexpected results because Applicant's evidence shows that an MK protein coupled with an $\alpha 1$ signal sequence produces an intact MK family protein at 3, 5 and even 100 times the level of other signal sequences. See Specification, example 3. Additionally, with regard to the amendment of claim 8, the cited reference do not teach the specified conditions, nor do they teach conditions overlapping in range such that the method would have been obvious to one of ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Konstantina Katcheves whose telephone number is (571) 272-0768. The examiner can normally be reached on Monday, Tuesday, Thursday and Friday 7:30 to 5:30.
